

# Erwan Tallec

**Head of Global Aerospace &  
Defence at Akkodis**

Erwan Tallec has been Head of Aerospace & Defence for Akkodis since 2022.

Mr. Tallec joined AKKA Technologies in 2008 and has held roles of increasing responsibility in the Aerospace sector. He is deeply interested in the transformation of industries and how the Aerospace value chain is evolving, driven by sustainability and digitalization initiatives.

He has over 15 years of experience in business development within the Engineering R&D services market. He has worked across multiple industries, including automotive, railway, and aerospace, with a primary focus on engineering, manufacturing, and customer service-related offerings.

**Beyond the Adecco Group:** French national, Erwan is passionate about politics, economics, and gastronomy. A lover of the great outdoors, he frequently heads to the mountains to engage in winter sports and mountaineering.

**Isabelle Stewart** has been Head of Global Life Sciences & Healthcare for Akkodis since 2022.

Mrs. Stewart is impassioned by the revolutionary role that the Smart Industry is playing in driving improved patient outcomes and medical breakthroughs.

Prior to joining Akkodis, she was Life Sciences & Healthcare Global Account Head for Capgemini. She was also Vice President of Sales & Marketing for Skypharma, a Vectura Group Industrial Segment. An industry veteran, Mrs. Stewart brings more than 20 years of experience within global technology, engineering, and pharmaceutical, medical devices companies.

**Beyond the Adecco Group:** Belgian national, Isabelle plays the violin and is deeply interested in architecture and medical sciences. In her spare time, she also enjoys skiing and trekking.

# Isabelle Stewart

**Head of Global Life Sciences &  
Healthcare, SVP at Akkodis**

# Joshua Morley

**Head of Global Data  
Analytics & AI at Akkodis**

Joshua Morley has been Head of Global Data Analytics & AI for Akkodis, Chair of the Australian Responsible AI Council and Head of AI for Akkodis Australia, since early 2023.

Mr. Morley joined Modis in 2020 as a Consulting Principal. He has also served as the National Lead Director of Internet of Things & Digital Twins. He firmly believes in leveraging advanced AI technology to create high-value solutions that bridge accessibility and equity gaps.

Prior to joining the Adecco Group, he was a Lead Architect at Insight, with experience working at PwC and Google. He serves on several Boards including Crosslinks Disability Services and Rotary Means Business West Australia. He is an adjunct associate professor for AI and has given lectures at over 10 universities in Australia.

**Beyond the Adecco Group:** Australian national, Joshua engages his creativity in blacksmithing, cooking and leatherworking. He also enjoys rock climbing and scuba diving.

# Peter Mehrle

**Head of Global Automotive  
and Transportation, SVP  
Germany at Akkodis**

**Dr. Peter Mehrle** has been Senior Vice President of Germany for Akkodis since early 2022. In 2012, he joined AKKA Technologies, following the successful integration of MBtech. He held several positions at AKKA Technologies and was appointed CEO of Germany in 2021.

Peter brings more than 15 years of experience in R&D services, project management, finance, M&A, PMI, corporate strategy, and consulting, with a special focus on engineering and IT service providers. He is passionate about mobility and driving performance and particularly appreciates the opportunity to support Akkodis' clients in their pursuit of a carbon-neutral and sustainable future.

**Beyond the Adecco Group:** German national, Peter enjoys spending time with his family and getting additional life out of his football career by playing in the senior team of his former club.
